

CompTIA A+ Certification
Your gateway to a promising career
in Information Technology.

Self-Paced Online Training

CompTIA Security+

CompTIA Security+ certification designates knowledgeable professionals in the field of security, one of the fastest-growing fields in IT.

The CompTIA Security+ exam will certify the successful candidate has the knowledge and skills required to install and configure systems to secure applications, networks, and devices; perform threat analysis and respond with appropriate mitigation techniques; participate in risk mitigation activities; and operate with an awareness of applicable policies, laws, and regulations. The successful candidate will perform these tasks to support the principles of confidentiality, integrity, and availability

CompTIA Security+ not only ensures that candidates will apply knowledge of security concepts, tools, and procedures to react to security incidents, it ensures that security personnel are anticipating security risks and guarding against them.

Candidate job roles include security architect, security engineer, security consultant/specialist, information assurance technician, security administrator, systems administrator, and network administrator. Organizations that employ CompTIA Security+ certified staff include Hitachi Information Systems (Japan), Trendmicro (Philippines), Lockheed Martin, the U.S. State Department, Prestariang Systems Sdn. Bhd. (Malaysia) and U.S. government contractors such as EDS, General Dynamics and Northrop Grumman. CompTIA Security+ is one of the options for certifications required by the U.S. Department of Defense, for military personnel or military contractors engaged in information assurance activities.

The CompTIA Security+ certification is accredited by the International Organization for Standardization (ISO) and the American National Standards Institute (ANSI) and is approved by U.S. Department of Defense to fulfill Directive 8570.01-M requirements. The CompTIA Security+ certification may be kept current through the CompTIA Continuing Education program.

Number of questions	Maximum of 90 questions
Length of test	90 minutes
Passing score	750 (on a scale of 100-900)
Recommended experience	CompTIA Network+ certification and two years of technical networking experience, with an emphasis on security.
Languages	English, Japanese, Portuguese and Simplified Chinese
Exam codes	SY0-401
